

# Declining Weigh Blending

**ALL STAINLESS STEEL**

**DECLINING WEIGH  
WIRELESS TECHNOLOGY**

**UP TO 300 TPH  
CONTINUOUS FLOW**

**SPEED AND ACCURACY  
EASILY EXPANDABLE**

Originally developed and introduced to the industry in 2002 by Ranco is the Multi-Blender Declining Weigh blend system, combined with the newest MeshDCS wireless operating system, also introduced exclusively by Ranco. This 'DW' declining weigh system weighs the output of each product as it's blending and continually adjusts every few seconds throughout the run for any variability caused by density or flowability changes.

- All 304 stainless steel construction
- Declining weigh technology
- MeshDCS wireless operating system
- Computer interface compatible
- Optional touch screen controls
- Continuous flow, no batching like conventional mixers
- True through-put capacities up to 300 TPH
- Unsurpassed speed and accuracy
- Easily expandable – can add bins
